

Waad Raggam

[AWS Cloud Practitioner Certified](#) | Certified Engineering Specialist | Software Engineer | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | waadsraggam@gmail.com | +966558685971

CAREER PROFILE

Software engineer with a Bachelor's in Software Engineering from Universiti Teknologi Malaysia. AWS Cloud Practitioner Certified with hands on experience in cloud platforms including AWS and GCP. Specialized in mobile development with Flutter. Proficient in GitHub version control and passionate about building scalable, efficient applications.

WORK EXPERIENCE

Client Project

Software Engineer

Riyadh, Saudi Arabia

Nov 2024 – Aug 2026

- Sole developer for a mobile app, independently owned the entire lifecycle from architecture, development, and publishing to iOS and Android.
- Designed and built the app, covering UI, state management, and business logic.
- Integrated Firebase services (Firebase Auth, Firestore, Cloud Storage, Cloud Functions, Crashlytics) for backend infrastructure, data persistence, and crash monitoring.
- Independently managed the Apple Developer account, including app registration, certificates, provisioning profiles, and App Store Connect setup.
- Integrated Apple services such as Apple Push Notification service (APNs) for real-time push notifications, including certificate/key configuration and payload handling.
- Configured and distributed TestFlight builds for internal and external beta testing, coordinating tester feedback into release cycles.
- Successfully published apps to Google Play Store and Apple App Store.
- Designed and developed the admin dashboard for managing users, listings, categories, reports, and other marketplace operations, with data and actions integrated with the mobile application backend.

Masterly Notion Media

Software Engineer

Riyadh, Saudi Arabia

Feb 2025 – Aug 2025

- Retm Platform
 - Lead mobile app enhancements and maintenance using Flutter, improving user engagement and app stability.
 - Applied best practices in source control, and continuous integration to ensure code quality.
 - Worked closely with product owners to refine user stories and deliver smooth, intuitive features.
 - Directed efforts in app architecture, bug fixing, and optimization, contributing to a stable and user-friendly application.
 - Utilized Google Cloud Platform services to support application deployment.

myFirst Tech

Software Engineer

Malaysia

Jul 2022 – Feb 2024

- Social Circle mobile app
 - Responsible to develop and maintain the mobile application for iOS and Android using Flutter.
 - Integrated various APIs and SDKs, researched and selected suitable ones, collaborated with the development team, improved app functionality with successful integrations.
 - Utilize source control, continuous integration, and unit testing best practices.
 - Integrated Stripe payment gateway and built the corresponding Flutter checkout and payment flow, including the user-facing payment experience.
 - Designed and implemented gamification features within the mobile application to support user engagement and retention.
 - Teamed up with cross-functional groups to define and code new app features, conducted meetings with design and product teams, resulting in the successful implementation of 3 major features.

- Led design, development, and debugging efforts, collaborated with the development team, ensured stability through regular testing and debugging, resulting in a well-designed, developed, and debugged app.
- myFirst FreeSim website
 - Specialized in maintaining and enhancing Node.js application, focusing on server-side scripting for optimal performance, achieving 99.9% uptime over a two month period.
 - Introduced a new segment of users, resulting in a 30% increase in website traffic within the first month post-optimization.
 - Utilized AWS services for efficient deployment and maintenance of web application, ensuring seamless scalability.
 - Played a key role in the successful deployment and maintenance of the website project, optimizing AWS infrastructure for scalability.

EDUCATION

- **Universiti Teknologi Malaysia (UTM)** **Johor, Malaysia**
Bachelor's of Computer Science (Software Engineering) with Upper Second Class Honours
- **Saudi Digital Academy** **Remote**
Software Development with C# Bootcamp
- **Tuwaiq Academy** **Riyadh, Saudi Arabia**
Professional cloud software development for Google Cloud Bootcamp
